PROFESSIONAL SUMMARY

Web Developer that's calm under pressure, whether teaching overseas or managing a major client account. A firm believer in approaching problems proactively rather than reactively. Experienced working as part of a team and appreciative of the value many perspectives provide when solving a problem.

TECHNICAL SKILLS

JavaScript, Node.js, jQuery, GIT, Github, MySQL, Firebase, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, AJAX, and the command line.

PROJECTS

Politician Tweet Analyzer| Javascript, jQuery, APIs | **Github** | **Live**
Backend Developer

Single-page web application for learning more about what politicians are saying, without the subjectivity of political bias

- Displays five most recent tweets from a user-selected politician using Twitter widget
- Utilizes Bootstrap, CSS, and API queries to create a recent news section, with clickable headlines from the New York Times and the Guardian
- Integrates text analysis API to objectively chart a tweet's emotion, political bias, and key words used

L.O.D.I. (Let Others Do It)| Express, Handlebars, Javascript, Node, Sequelize | **Github** | **Live**
Backend Developer

Full stack web application where users can search for housing contractors in their area

- Dynamically created, sortable tables for each worker specialty
- Dynamically created map displaying each workers radius of availability
- All pages built using Express Handlebars
- New contractors can be added, with form validation on the frontend and backend

EXPERIENCE

Professional Examination Service

9/2011-present

Junior Account Manager

- Created software demonstration videos for our proprietary website that eased customer use of site
- Improved efficiency of payment processing for client, reducing post-exam payment window from eight weeks to four weeks
